

Local authorities companies and charities

Local authorities are becoming increasingly creative and entrepreneurial in the way that they carry out their functions. Key to this development has been the ability to organise delivery of services by means of companies, charities, community interest companies and other organisations.

Our local government specialists are at the cutting edge of these developments including:

- advising and assisting local authorities and their partners in participating in school Academy projects;
- establishing companies limited by guarantee for promoting economic regeneration initiatives; and
- advising on the setting up of companies for the purposes of municipal and commercial trading in the context of shared services arrangements.

We can also provide tailored training to your local authority on all of these issues in order to ensure that you are making the very best of the options that are available.
